Google Cloud Platform Essentials (1/2)

Mr Mohamed Bachir BOUAGGA – Backend
developer at ITM Studya & GDG Constantine Co-
Organiser

13H00-14H30

Room 27

Description

In this introductory-level quest, you will get hands-on practice with the Google Cloud Platform's fundamental tools and services. GCP Essentials is the recommended first Quest for the Google Cloud learner. you will come in with little or no prior cloud knowledge, and come out with practical experience that you can apply to your first GCP project. From writing Cloud Shell commands and deploying your first virtual machine, to running applications on Kubernetes Engine or with load balancing.

//

Prerequisites

- All students from L3, M1 and M2 can participate.

//
