First LABEX-TA Workshop on SoS Architectures and Applications

SoSaa 2021

In conjunction with the Tunisian-Algerian Joint Conference on Applied Computing (TACC 2021)

The Tunisian Algerian Conference on Applied Computing (TACC 2021) is an ideal platform for keeping up with advances and changes to a consistently evolving field. Leading researchers and industry experts from Tunisia and Algeria will be presenting the latest studies through papers and oral presentations. This conference edition is dedicated to the study of applied research of real-world problems. It aims to address, through two tracks, both theoretical and applied computer science issues. In addition, a one-day workshop will be held in conjunction with the conference which will focus on the system of systems architecture and applications.

- SoS modeling and analysis
- SoS framework and applications
- IoT-based SoS
- Computational intelligence for SoS

Submission guidelines

The submissions present original articles that illustrate unpublished research results, projects, and surveying works on System-of-Systems. At least, one of the authors should be affiliated with RedCAD or LIRE laboratories.

The SoSaa 2021 workshop accepts submission of long, short, and demo papers.

- Long papers must be no longer than 12 pages.
- Short and demo papers should be no longer than 6 pages.

Authors are encouraged to also submit additional materials, such as datasets, demo code, videos, and sound files.

All submissions must conform to the TACC 2021 formatting and submission instructions that are available at CEURART.zip for both LaTeX and Word users. Papers must be written in English and must be submitted electronically in PDF format.

All paper submissions will be handled through the Easy Chair conference management system:
